

APICS Lean

Experts estimate that 80 percent of becoming a lean enterprise is culture-related. Without employee support, you can't make many, if any, changes in your organization. Even if you aren't planning to implement lean manufacturing, making any changes sustainable can be an uphill battle without the right company culture.

What You Will Learn

- To retain good employees and maximize employee potential
- To improve bottom-line results
- To make improvements sustainable
- To develop behaviors to support lean production improvements

Who Should Attend Manufacturing managers, supervisors, decision-makers, team leaders, workers interested in learning about process and productivity improvements in a manufacturing environment

Course Number

623-459

Price per Person

\$1,375.00

Dates

3/26, 4/16, 4/30, 5/14/2009

Time

8:30 a.m.-3:30 p.m. except last day 8:30 a.m.-11:30 a.m.
